What is Short-Term Disability?

STD provides you with income, it protects your paycheck by paying you 60% of your earnings when you are out of work due to short periods of disability due to injury or illness, as defined in the policy. Loss of income can be devastating – and today, it's more important than ever for employees and their families to understand how they would manage their regular expenses during a period of lost income and make sure they're prepared.

What STD plans are available to purchase?
