

SAVINGS AT YOUR FINGERTIPS

Now it's easier than ever to find and compare health care costs.

Smarter searches. Better results.

It's true. The more you know about the cost and quality of doctors and hospitals, the easier it is to make the best choices for you and your family. After all, no one wants to pay too much for health care.

The intuitive myCigna health care professional directory has plenty to offer, starting with simplified search tools that give you the results you need. You'll also see integrated cost and quality information throughout the directory, helping you compare doctors and control health care spending.

We've put everything at your fingertips, ready to help you make the most confident, cost-effective decisions about your care.

It pays to plan ahead.

Integrating cost and quality information into our online directory makes it easier for you to get the care you need.

For example, did you know that an MRI can cost anywhere from \$400 to \$1,400*, depending on where you go? It's okay if you didn't know, because we do. And we'll tell you, even if you don't think to ask before you start searching.

The screenshot shows the myCigna website interface. At the top, there's a navigation bar with user information (Hi Brenda) and a search bar. Below that are several menu items: REVIEW MY COVERAGE, MANAGE CLAIMS & BALANCES, FIND A DOCTOR OR SERVICE, CHINA HOME DELIVERY PHARMACY, ESTIMATE HEALTHY CARE COSTS, and MANAGE MY HEALTH. The main heading is "Find a Doctor or Service". Below this, there's a search area with "Search Location" and "Looking for" (set to PCP) fields, and a "SEARCH" button. A "NEED HELP" sidebar is on the right. The main content area shows "Popular Searches" on the left and "Compare procedure locations. Your choices can impact your cost." on the right. The comparison table is as follows:

Procedure	Estimated Costs	You could pay
Knee Arthroscopy	\$2,167 - \$2,470	\$2,167 - \$2,470
Colonoscopy	\$696 - \$3,860	\$696 - \$3,860
MRI Scan - Lower Back w/o Dye	\$472 - \$1398	\$400 - \$1,400

* Estimated costs are based on November 2014 Cigna analysis of claims for MRI of lower back without dye total cost during a 12-month period. Actual costs will vary.

Together, all the way.SM

Details that make a difference.

Let's say you need to find a knee doctor. Wouldn't you want to know which doctors do their outpatient knee surgeries at a hospital and which do the same procedures at a (more affordable) outpatient surgery center? We'll show you those types of differences as part of your search, too.
